

**Maple Leaf Storage is raising a glass to sustainable design and greener neighbourhoods as a sponsor of *Our Global Embassy: Humans and Nature Silent Art Auction and Wine Tasting*.**

Maple Leaf Self Storage is proud to announce their sponsorship of *Our Global Embassy: Humans and Nature Silent Art Auction and Wine Tasting* in support of the Projects in Place Society. Maple Leaf Self Storage is one part of the collective of Lower Mainland organizations coming together for this inaugural fundraising event, donating three free months of storage space as an auction item.

PIP is an organization that works with the community to revitalize forgotten spaces with green projects. They assist in designing and implementing projects that reflect environmental stewardship and make communities more beautiful.

*"Maple Leaf Self Storage's support for our fundraising event is truly helpful in ensuring the ongoing success of Projects in Place initiatives,"* explains event coordinator Robert Greene. *"The success of our work in eco-sustainability would not be possible without the kind of generosity Maple Leaf has shown with their sponsorship."*

Maple Leaf Self Storage has asserted their role as environmental stewards in their support of this event, and they are in good company. *Our Global Embassy* will feature more than 40 art works including a Salvador Dali Sketch, as well as a wide range of products and experiences donated for both the silent auction and raffle. With international artists and Consulate Generals from four countries on hand, this fundraising celebration takes a global perspective on both art and the environment, while affirming the importance of taking care of our own backyard.

*Our Global Embassy: Humans and Nature Silent Art Auction and Wine Tasting Event* will take place Saturday, September 18, 2010 at The Labyrinth House, 1138 Jervis Street in Vancouver from 7p.m. to 11p.m.
